## *The Silken Thread*

I visited **The Silken Thread** to find a cute summer bag to be embroidered. I found much, much more! Not only does The Silken Thread offer fine embroidery for bags, but also baby bibs, banquet ribbons for weddings, and cocktail napkins for any occasion. Let's just say I didn't just purchase a summer handbag...

The Silken Thread was created to deliver custom monogrammed and embroidered gifts and linens of the highest quality to every one of their clients. The quality of the thread is of the utmost importance in order to receive the best looking items - this is why I love The Silken Thread! The gifts and linens are high quality, but I can buy them at a great price.

You can even have clothes and other items that you already own embroidered by sending them in to The Silken Thread. It's easy, fun, and it looks so cute!
